The battery-powered digital pressure gauge *BAROLI 02* enables a local displaying of values, satisfying the highest demands for accuracy and long-term stability.

The pressure gauge may be applied in all media compatible with the stainless steel used; it shows an excellent robustness and a high overpressure protection.

The *BAROLI 02* display housing is rotatable, thus ensuring an easy reading even under unfavorable mounting conditions.

Additional functions as changing the unit, displaying min / max values, calibrating of offset and the span, as well as configuring the automatic switching-off complete the profile.

Preferred areas of use are
